From the Palette

Spring 2024

Sandhill crane photo
by Linda, Feb 2024

On our drive home from my show in Tulsa, OK (*NatureWorks*) we made the slight detour to the Platte River in Nebraska. There we were greeted by more than 200,000 sandhill cranes (count by the Crane Trust) as they stopped over on their way north. Impressive! It was hard to keep one's eyes off of these magnificent birds but I was thrilled to spot a pair of meadowlarks as we watched the cranes.

BUILDING A PAINTING

For a number of years I've wanted to paint a piece showcasing the landscape where the Pryor Mountain wild horses roam. Below you can see some of my photos in progress.
